

Dear Candidate! Thank you for taking the time for the interview.

As the next stage of the hiring process, we would like to ask you to complete the following tasks:

Test task 1 — Manual part

- Analyze the test page: test-ga.capslock.global.
 - Select 10 bugs you consider most critical for the business.
 - Document bugs you choose in the following format:
- **Bug description** (where and what happens)
 - **Steps to reproduce**
 - **Expected result**
 - **Actual result**
 - **Screenshots or videos** (if necessary)

Form Requirements

The form on the page must follow these rules:

- All fields are required.
- **Zip code:** must contain exactly 5 digits.
- **Email:** must match a valid email pattern (e.g., user@example.com).
- **Phone number:** must contain exactly 10 digits.
- After successful submission, the user must be redirected to the **“Thank you”** page.

Deliverables

Written Bug report (.docx, .pdf, or similar)

Test task 2 — API Automation
